A338/A346 Working Group

Dear Mr Rogers,

Marlborough Town Council received a presentation from Cllr Charles Howard on 29 March 2010 on the work that the A338/A346 Working group are doing regarding the problems affecting communities along the A338/A346 Corridor caused by LGV traffic.

Residents of Marlborough are affected by the number of LGV's that use this route from the South through to the Midlands, with Barn Street being particularly affected by noise and poor air quality resulting from the traffic.

Cllr Howard asked the Town Council to support the working group's recommendation that the A338/A346 be declassified as part of the National Primary Route Network. The council were strongly supportive of the recommendation of the working group and hope that the Area Board will also look favourably upon their recommendation when it considers the issue on 13 April 2010.

Yours sincerely,

Liam Costello
Town Clerk
